Hawaii Community Development Authority

MISSION FOR KAKA'AKO

HCDA will serve as an infrastructure developer, landowner, city planner, regulator, and property manager to expeditiously implement Kaka'ako's master plan.

In doing so, HCDA will contribute to Hawaii's economic development, education, and exposure to the culture and the arts; be sensitive to and support existing businesses and residents; and, in the process, provide the most livable community and raise standards for new communities throughout the State.
